

ZIPPER MERGE TO BE REVERSED

Beginning Thursday, March 12, the lane reduction on I-94 West, at 68th Street, will switch from the left-hand lane to the right-hand lane as crews extend the work zone to the north of the interstate. Motorists should utilize all lanes until they reach the merge point, and then take turns as they merge. As crews work to reconstruct and widen the westbound lanes of I-94, this lane reduction will be in place through 2015.
